Model No: DCCLH-35-56VDC

Model No: DCCLH-35-56VDC

Product Description

- Extended temperature DC POE device
- Supports most of RADWIN product portfolio
- Up to 2.5Gbps Ethernet interface
- 35 Watts POE power
- Rated power up to 35W
- Efficiency >85%
- Overload, over-voltage and short circuit output protection

Features

- Input Voltage 48VDC
- Output Voltage available 12-56VDC
- Data pin 1,2,3,6. Power pin 4,5(+ve) and 7,8(-ve)
- Protections: Short circuit, overload, over voltage, CC, CV, isolated o/p PCB Terminal block for connecting I/P power cable.
- Metallic RJ45 port for POE – OUT and DATA ports.
- LED indication for ON and O/P OK.
- Earthing port (6sqmm) and Metallic RJ45 connected to earthing.

Environmental	
Operating Temperature	-20°C to +70°C
Humidity	0% to 95% RH
Other	
Dimension	150*60*40mm
Weight	245g

Measurements

Dimension 150 x 60 x 40 mm (L- W - H)
